

Integration courses

Nationwide, there is currently a very high demand for places in integration courses. We have already responded to this need and significantly increased the number of our courses.

However, all of our integration courses are currently fully booked. There are therefore no more available places in the first quarter of 2023. It is also currently not possible to make an appointment for consultation, placement and/or registration.

We very much regret this and hope that the situation will change soon so that we will be able to offer all those interested a place in an integration course.

In the meantime, please inquire about available places in integration courses from other course providers. You will find an overview here:

<https://bamf-navi.bamf.de/de/>

As soon as we will be able to offer consultation appointments and available course places we will announce this on our website.

Thank you very much for your understanding. We are happy to answer any questions.

Sincerely, your VHS Norderstedt.
